Situation

SPIFFING SERIOUS ABILITY

SELF-FLAGELLATE

Abase and abuse yourself to atone for your sins and those of your companions. What those sins are might be unclear, but you're positive the Big Guy is cheesed off with you about something or other.

d30	Your God Is...	The SSA Recharges...
1-5	Terribly disappointed. Suffer an immediate Beshrewment. You cannot use Purpose as a Deed until you meet the recharge requirement.	Once you've flagellated yourself down to Virtually Dead.
6-14	Unresponsive. Must have flagellated a bit too flaccidly.	On your next turn.
15-20	Minimally responsive. You can adjust any of your Traits by one degree in either direction. All Participants turn in one Demerit.	After several hours of thoughtful silence and fasting.
21-24	Satisfied with your penance...for now. Adjust any one of your, and your companions', Traits by one degree in either direction.* All Participants turn in up to two Demerits.	After you get three strangers to spank you.
25-27	Pleased. Adjust any one of your Traits as much as you would like in either direction. All Participants turn in up to three Demerits.	Next session.
28-29	Most gratified by your penance. Adjust any one of your, and your companions', Traits as much as you like in either direction.* All Participants turn in all Demerits and receive one Merit.	Next session.
30	Beholden. Adjust your Traits, and those of your companions, however you like.* All Participants turn in all Demerits and the Monk's/Nun's Participant receives 10 Merits, which they can distribute however they like.	Next session.

* In consultation with, and with the consent of, the PCs' Participant(s).
